

ionic framework

Hi. I'm Dylan. I make apps and stuff.

So what is this ionic
thing you speak of?

ionic: a HTML5 hybrid
app development
framework

What does that even mean?

- AngularJS
- Cordova
- Sexy CLI
- Hardware Acceleration
- Sass Components
- Open Source

Not a responsive framework.

“js mobile apps suck like poo”

–every native ios/android developer ever

“whatever whatever I do what I want”

–Me

So....Minecraft is pretty cool.

Math.

nether calculator specs:

overworld -> nether portal

- **X** coordinate is an 8:1 ratio
- **Y** coordinate is an 1:1 ratio
- **Z** coordinate is an 8:1 ratio

```
$ ionic start nether blank
